FEATURES AND BENEFITS

OILPRO Full Synthetic DEXOS Motor Oils are formulated to surpass API SP & ILSAC GF-6A industry standards in order to meet the ever-increasing performance and emissions requirements of today's technologically advanced engine systems:

- Protects Turbocharged Gasoline Direct Injection (TGDI) engines that may experience Low-Speed Pre-Ignition (LSPI).
- Improved control of sludge, high temperature deposit formation and viscosity increase than previous generation gasoline engine oils.
- Robust anti-wear & friction control additives help protect timing chains and valvetrains from stretching and surface degradation.
- Maintains more consistent viscosity than previous generation chemistry which helps extend both drain intervals and engine life.
- Helps reduce fuel costs while still providing excellent protection against engine wear under the most extreme operating conditions.
- OILPRO Full Synthetic DEXOS engine oils are backward compatible to previous API and ILSAC specifications.
- OILPRO Full Synthetic DEXOS engine oils 0W-20 and 5W-30 are licensed dexos1® Gen3 fluids.
