### PRODUCT DESCRIPTION

**OILPRO SYNBLEND MOTOR OILS** are specifically designed to meet or exceed lubrication requirements of all modern engines. Formulated with high quality OILPRO base stocks resulting in improved oxidation resistance, viscosity retention and cold flow properties. SYNBLEND products provide superior resistance to oxidation, corrosion, sludge, varnish, wear and foaming.

### PRODUCT APPLICATION

OILPRO SYNBLEND MOTOR OIL is recommended for use in a wide range of vehicle and fuel types requiring approved fluids:

- Passenger cars, light-duty trucks, sport utility vehicles, motorcycles, power boats and gas powered four-stroke engines.
- Gasoline and flex fuel (up to E85) passenger cars, light-duty trucks, sport utility vehicles and gasoline-electric hybrids.
- Engines and manufacturers specifying an API SP/ILSAC GF-6A approved engine oil.
- Engines fitted with gasoline direct injection (GDI), turbocharged gasoline direct injection (TGDI) and/or variable valve timing

### **FEATURES AND BENEFITS**

OILPRO SYNBLEND MOTOR OILS help protect today's complex engine designs & systems that must operate at ever-increasing levels of fuel efficiency, wear protection and emissions controls:

- Protects Turbocharged Gasoline Direct Injection (TGDI) engines that may experience Low-Speed Pre-Ignition (LSPI).
- Improved control of sludge, high temperature deposit formation and viscosity increase than previous generation gasoline engine oils.
- Robust anti-wear and friction control additives help protect timing chains and valvetrains.
- Maintains more consistent viscosity than previous generation chemistry which helps extend both drain intervals and engine life.
- Helps reduce fuel costs while still providing excellent protection against engine wear under the most extreme operating conditions.
- OILPRO SYNBLEND engine oils are backward compatible to previous API and ILSAC specifications for gasoline engine oils.
